2013 YEAR IN REVIEW

GET ON THE RIGHT COURSE TO FIGHT CANCER®

Dear Friends,

As 2013 comes to a close, I would like to thank you for your tremendous support and hard work over the past year. It is always impressive to see the impact of so many talented and dedicated volunteers coming together to plan and host golf tournaments for Dana-Farber and the Jimmy Fund, and this year was no exception. Together, tournament organizers, sponsors, volunteers, and golfers worked together to host 150 tournaments and events, bringing together nearly 25,000 golfers to raise nearly \$6.5 million to support our mission to conquer cancer. These funds play a critical role in Dana-Farber's ability to remain on the cutting-edge of cancer research and patient care in 2013 and beyond.

This year has been full of exciting advances in cancer research for adult and pediatric cancer patients. For example, Dana-Farber recently launched a Phase I clinical trial of a new vaccine, which was fast-tracked by the FDA to treat melanoma, a lethal form of skin cancer. This is just one example of how funds raised through Jimmy Fund Golf tournaments are helping advance our lifesaving mission at Dana-Farber Cancer Institute. On behalf of all the physician-scientists, caregivers, and patients your hard work supports, I thank you.

It is exciting to imagine what new breakthroughs will take place next as a result of your enthusiastic efforts to support Dana-Farber and the Jimmy Fund on the golf course. Thank you so much for all you have accomplished in 2013, and I look forward to celebrating even more milestones in the year ahead.

Sincerely,

Edward J. Benz Jr., MD
President and CEO, Dana-Farber Cancer Institute

2013 NOTEABLE RESEARCH AND PATIENT CARE BREAKTHROUGHS

Thanks to your support and dedication, this year Dana-Farber:

- Used whole genome sequencing to **identify new mutations driving 71 percent of skin cancers**—the first-ever discovery in what was previously known as “junk” DNA
- Launched a free nutrition app called Ask the Nutritionist: Recipes for Fighting Cancer** that helps patients undergoing treatment
- Completed more than 5,000 genetic profiles of tumor DNA as part of Profile**, an unprecedented research study that is creating the world's largest database of genetic abnormalities in cancer
- Induced complete remission lasting a median of three years in patients with advanced CLL** through use of a vaccine
- Headed the first large scale study of female pediatric cancer survivors and found that **infertility rates for the group were lower than previously thought**

The milestones above are taking place because of your generous support

THANKS TO YOUR GENEROUS SUPPORT, OUR VOLUNTEERS AND SPONSORS RAISED NEARLY \$6.5 MILLION FOR DANA-FARBER AND THE JIMMY FUND IN 2013.

"This year's tournament was particularly special as we renamed the tournament to honor longtime Jimmy Fund supporter and former Berkshire Council President and Founder Paul Dowd. With the addition of two new fundraisers, the friends and family of Paul, and council members came together to honor his life and legacy and significantly increased the total fundraising of our annual tournament."

— Bob Tucker, Tournament Director, Paul Dowd Jimmy Fund Classic

Left to right: Tournament Director David Lanzoni joined Mark Kazanjian, Christopher Duffey, and Jami Giordano to honor his father's memory at the David L. Lanzoni Memorial Golf Tournament, hosted Aug. 5 at Campbell's Scottish Highlands in Salem, N.H. The tournament, which was held for the seventh time, raised \$22,000, an increase of nearly \$12,000 over 2012.

THANK YOU!YOU RAISED NEARLY

AND MORE THAN
\$97 MILLION IN 31 YEARS
OF JIMMY FUND GOLF!**THE IMPACT OF YOUR GIVING**

Dana-Farber Cancer Institute's equal commitment to research and patient care is unique among cancer centers and results in an extraordinary level of collaboration between our scientists and clinicians, speeding the translation of laboratory discoveries into lifesaving treatments for patients all over the world.

Unrestricted, flexible funding sustains Dana-Farber with crucial dollars that can be directed where and when they are needed most. As our patient care, research, and outreach initiatives continue to grow, so too does our need for this steady, adaptable funding.

Exciting advances in research and technology enable Dana-Farber to unravel cancer's mysteries at a remarkable pace, yet federal funding for medical research is on the decline. Support from Jimmy Fund Golf helps to fill that gap and keep Dana-Farber at the forefront of discovery, launching new clinical trials and developing new treatments that hold great promise for patients here and around the world.

Gifts without restriction also allow Dana-Farber to provide a range of services to patients and their families, including financial assistance to those in need, and to educate the wider community about the importance of cancer prevention and screening.

When you give to Dana-Farber Cancer Institute and the Jimmy Fund, you can be confident your support is making a powerful difference in the fight against cancer for adults and children.

MINI GOLF EVENTS

There were smiles all around at Mini Golf Fore Jacob this summer, held as an add-on event at the 11th annual Golf Fore the Kids tournament, together raising \$15,000 to support Dana-Farber and the Jimmy Fund.
